SAFETY SHOE

### S3 safety lace-up sneaker,

Non-marking SSR GRIP non-slip rubber contact sole.

Non-magnetic sneaker (does not trigger security equipment), equipped with a composite toe cap, offering protection against impacts equivalent to at least 200 J and against crushing under a minimum load of 15Kn.

Multi-layer anti-perforation sole made of heavy-duty textile.

'On Micro Leader 1.4' vegan microfiber upper, polyurethane coated textile, smooth leather look, supple, breathable, antibacterial, waterproof, resistant to chemical agents, wipe-clean with a damp sponge.

'Coolmax' effect inner lining: breathable polyester mesh, wicks moisture away from the foot for maximum comfort, very high resistance to abrasion and repeated rubbing.

Removable, antibacterial, absorbent polyurethane insole, bonded fabric, EVA 'Shock Absorber' heel.

Complies with the essential requirements of Regulation (EU)2016/425 on Personal Protective Equipment (PPE).

Certified by A.N.CI, Servizi s.r.l a socio unico.

CIMAC Operational Headquarters – Via Aguzzafame 60/b, 27029 Vigevano (PV), Italy, European Notified Body No 0465.

Module B Type Approval Certificate No. **F-186-01059-18**

Designed in compliance with EN ISO 20345:2011 S2 SRC, meeting:

- Essential requirements, fundamental properties.
- Additional requirements for special applications:
- Antistatic footwear, closed back.
- Energy absorption capacity of the heel.
- Oil resistant outsole.
- Resistance to water penetration and absorption.

Protects against the risk of slipping and falls on smooth, slippery or soft industrial floors. (SRC).

CLASS II PPE.

Delivered with the SSR GRIP Cleaner\*.

Colours: BLACK - WHITE.
